#### PERSONAL

When Adam Shunk first came to Codrington Enterprises he was a 2.23m high jumper studying for his doctorate in Neuropsychology, which left little time for training. After joining CE's roster of athletes, Adam took part in a series of high-level competitions arranged by CE. Adam improved his personal best by 2cm in his first season.

Adam has proven to be a very good high jumper, capitalizing on any

opportunity presented to him. His best is now 2.30m and he was the 2006 US Indoor High Jump Champion, representing the USA at the 2006 World Indoor Championships in Moscow, Russia.

Currently, Adam has attained some additional heights. In 2006 Adam signed a contract with Nike, got married and finished his doctoral studies. After doing his practical training in the field of Neuropsychology, Adam was awarded his Ph.D. in 2007. Despite his hectic schedule, Adam still finished 2nd at the 2007 US Championships. He went on to represent the USA at the NACAC Championships as well as the Pan American Games, taking first and fifth places respectively.

Adam's overall goal for his track career is to be on the medal podium at the 2008 Olympics.
